Mens: <https://ecolejhpicard.entripyshops.com/mens-zone-performance-t-shirt>

Ladies: <https://ecolejhpicard.entripyshops.com/ladies-zone-performance-t-shirt>

Youth: <https://ecolejhpicard.entripyshops.com/youth-zone-performance-t-shirt>

Calculator required for math and sciences:

For high school, **every student requires a graphing calculator**. We recommend either the **TI-83** or **TI-84**, from Texas Instruments. It is very important that student's mark their calculators with their identity. The TI-84 is the newer model and has some advantages but is also slightly more expensive. The TI-83 works fine. There are other graphing calculators from different companies and any would work. However, teachers demonstrate using the TI-83 and TI-84 so it's the best if students have one of these if possible.

Journal required for English Language Arts:

We are using a **Personal Composite Writing Journal** in ELA for each student. Journals are purchased in grade 10. The school will purchase these composite writing journals in bulk and you will be able to purchase them from your Parent Powerschool account for \$3.50.
