

FULL-DAY PROGRAMMING

KINDERGARTEN & EXTENSIONS

Kindergarten Programming

The classroom learning environment highlights curriculum and learner outcomes through play.

TEACHER

- targets learning outcomes
- plans, develops and teaches whole group, small group and individual experiences
 - creates meaningful opportunities
- assesses the children's understanding and reports on learner outcomes to parents including formal reporting with PowerTeacher Pro
 - teacher develops and implements Individual Program Plans to support students with special needs

Extensions Programming

The studio learning environment provides meaningful experiences in a play-based context.

EARLY CHILDHOOD EDUCATOR

- follows curiosity of the child
- co-creates projects and interest-based centres
- fostering community with social-emotional learning
- authentic problem solving, risk taking, project work
- creative expression explored through fine arts experiences – drama, music, art
- learning made visible through documentation
- is guided by FLIGHT: Alberta's Early Learning & Care Framework
