MODULE	TITLE				
1	<i>Identify and describe different types of navigation techniques, and their development</i> <i>Identify and describe different types of maps</i> <i>Demonstrate methods used to read and interpret a variety of types of maps</i> <i>Demonstrate use of a variety of navigational devices</i> <i>Demonstrate basic wilderness navigation</i> <i>Demonstrate basic competencies</i> <i>Make personal connections to the cluster content and processes to inform possible pathway choices</i>				
An Important Note About Assessment	A wide range of assessment information is used in the development of a student's final grade. Within Alternative Education, individualized assessments provide specific information regarding student progress and overall performance in the course. Student assessments may vary from student to student to adapt to differences in student needs, learning styles, preferences and paces. The teacher will apply best teaching practices to determine appropriate assessment.
