

## Post-Secondary Planning

Grade 12 students are busy thinking about applying to the Post-Secondary institutions and programs of their choice. Throughout Canada **applications open on October 1, 2021** for the Fall 2022 admissions cycle and admission will continue throughout the fall and winter months. Please be aware of all application deadlines as they vary by school.

Student Services receives many questions about programming and faculty selection. There are a number of online tools students can use to help discover which program is right for them. We encourage parents to get involved as there are some large decisions to make. Please look at the following career planning tools available to help point students in the right direction:

ALIS – the Alberta Government career finder:
