Submit Request

Intentions has been submitted by on at

Parents/Students will have the opportunity to declare whether their Intention is to:

- **YES = Attend their expected school**
This will be the majority of requests as students transition to their next grade level
- **No = Not attend their expected school**
Students make an alternate choice based on wish or specific programming. If this selection is made, an alternate school choice would be selected
- **No - Selecting Online = Attend an Online School**
If this selection is made, they will be directed to one of two schools based on their grade level
- **Other = If none of the above apply (Example, moving out of District or province)**

In addition, parents/students can also choose a preferred **Focus/Alternative Program** offered at their selected next school and indicate any **Bussing** requirements.

Once completed and the parent clicks to **SUBMIT REQUEST**:

- The Intention is delivered to the school the student is **currently** attending
- The intention is locked for the parent. In the event future changes are necessary, the parent would need to contact the current school.

A submission Name, Date and Time Stamp records the request for tracking
